

## REFERENCE

Litija d.o.o.e.l. Skopje is working on the construction industry market with thermoplastic materials for 46 years. We have 29 years experience as a private company in Macedonian Business Market and on the field of Civil Engineering. The primary activity and occupation are products from Acrylics – PMMA and Polycarbonate – PC. For 13 years we are present on the field of acoustic environment protection with transparent sound barriers for the roads and rails.

In our history we have been General Representative for PMMA for "Lesna Industrija Litija" from Slovenia from Year 1975. As Macedonian company since Year 1991, we are General Distributor for PMMA, PC, PVC, PETG for:

- SABIC Innovative Plastics
- Perspex International
- 3A Composites
- Akripol

Our skilled and experienced team is specialized for construction projects and for installing buildings with glazing, facades, canopies, roofing skylights and domes, made of PMMA / PC, as well as transparent sound barriers for roads and rails, including aluminium panels.

All of the products that we are offering are with origin from EU, produced from best in class raw materials and technological processes. Project details and installing are according to the manufacturers know-how and standards according EN legislation and the products are ensured and declared with certificates of quality and declarations for performance, including country of origin.
